UNITED STATES DEPARTMENT OF AGRICULTURE

PREFACE

This list includes all serials, printed and processed, received by the Library of the United States Department of Agriculture, on a current basis, as of July 1, 1957. Only dailies and such Government publications as are intended for internal or administrative use are omitted. A serial is defined as a publication that is issued either regularly or irregularly over an unspecified period of time. For the purposes of this list, a serial was considered current if it had been received in the Library at any time since January 1954, unless it was known to have ceased.

Each entry includes issuing office, if any, title, frequency of issue, place of publication, and the call number used in this Library. The place of publication of U. S. Government serials has been included only when it is other than Washington, D. C. Cities of the U.S.S.R. have been omitted for the most part. Information in the title or the author entry for a serial has not been repeated if it is in a form readily understandable by English-speaking readers. For example, frequency is omitted if it forms part of the title, as in *The Weekly Observer*. Similarly, any part of the place name that appears in the title or author entry as a noun in the English form is omitted from the imprint, as in *Pakistan Hides and Skins*. m. Karachi; or *Maine Veterinarian*. q. Augusta; but *Irish Baker*. bi-m. Dublin, Ireland.

Following the alphabetical list of serials is a list of words which will be abbreviated in citing serial titles in the bibliographies issued by this Library.

The present list supersedes *Bibliographical Bulletin* 12, issued June 1950, and its Supplement No. 1, issued July 1953. For discontinued serials which may still be available in the Library, the reader is referred to the following publications of the U. S. Department of Agriculture as well as to *Bibliographical Bulletin* 12:

Miscellaneous Publication No. 245, *List of Periodicals Currently Received in the Library of the U. S. Department of Agriculture*, June 1, 1936;

Circular No. 187, *List of Serials Received in the Library of the U. S. Department of Agriculture*, January 1922;

Library Bulletin No. 75, *List of Periodicals Currently Received in the Library*, 1909.

Library Bulletin No. 37, *Catalog of the Periodicals and Other Serial Publications in the Library*, 1901.

The last includes all the serial holdings of the Library at that date.

The Library distributes none of these serials except those which it publishes. Information about the distribution of the series published by the U. S. Department of Agriculture may be found on pages v-vii of its List No. 11, *List of Available Publications of the United States Department of Agriculture*, 1954.

Photoprint or microfilm copies of articles from serials in this list may be ordered from the Circulation and Photocopy Section of the Library of the U. S. Department of Agriculture at the following prices:

Microfilm - \$1.00 for each 50 pages or fraction thereof.

Photoprints - \$1.00 for each 5 pages or fraction thereof.

Rush service fee - 1.00 extra for each order.

Payments should accompany the order.

A B B R E V I A T I O N S

Following is a list of words which will be abbreviated in serial titles in bibliographies prepared in the Library of the United States Department of Agriculture. Words in inflected languages have been given in the form used in the dictionary without any attempt being made to list all forms in which the word is found in serial titles. The same abbreviation is to be used for any case, number or gender. Words coming from the same root as those listed after an abbreviation and spelled so that the abbreviation in the list may be used, may be represented by that abbreviation even if the particular word to be abbreviated is not listed.

For a few frequently used words, special abbreviations have been set up. For example, Ybk. is the abbreviation for Yearbook, although Year itself is unabbreviated, and although the usual abbreviation for book in compounds is b. Similarly, Agr. has been adopted as the abbreviation for Agriculture in many languages, even though Cult., separately, as well as Colt., Kult., and Kul't. will be found listed. Agr., however, stands for Agricoltor, Agriculteur, Agriculture, Agrikultura, Agrikul' turnyi, etc. Words incorporating a combining form will be found only under the stem word. Biochem., for example, will not be found in the list. Chem. will be found in its alphabetical place as standing for Chemia, Chemic, etc. Therefore Biochem. is the abbreviation for Biochemia, Biochemic, Biochemical, etc.

Compound words have not usually been listed in the compound form. The abbreviation is to be determined by looking up one or more of the component parts. For example, Nachrbl. is a combination of the abbreviations Nachr. for Nachrichten, and Bl. for Blatt. Similarly, Festschr. is the complete word Fest combined with the abbreviation Schr. for Schrift. When we find the abbreviation Landwirt. Taschenkal. we note that Landwirt. is a compound word, the first part of which, Land, is complete. Wirt. is the abbreviation for Wirtschaft, Wirtschaftlich, Wirtschaftlicher, etc. Taschen is unabbreviated, and Kal. is the abbreviation for Kalender. The title is therefore Landwirtschaftlicher Taschenkalender. In the case of Norway. Statis. Sentbyr. Statis. Arb. f. Norge, we find that Norway is complete, Statis. stands for Statistisk, Sent. for Sentral, Byr. for Byrå, Ar is complete, b. is for bok in compounds, f. for for, and Norge is complete. The title, then, is Norway. Statistisk Sentralbyrå. Statistisk Arbok for Norge.

In preparing abbreviations for serial titles, prepositions are usually omitted in English titles, and included in titles in other languages.

Titles consisting of one word only are not abbreviated.
